Professional Summary

CSE undergraduate at American International University-Bangladesh with a 3.83/4.00 CGPA and Dean's List honors. Hands-on experience in Python and SQL through projects including a house price prediction model and a GraphRAG compression study. Skilled in data cleaning, exploratory analysis, and regression modeling. Also experienced in building database-driven applications with MySQL, PHP, C#, and Java, with a solid grounding in data structures and object-oriented programming. Demonstrated teamwork and coordination skills through leadership in the Science Club and volunteer judging at WCA competitions. Seeking a data analyst position to apply analytical and problem-solving skills to real business problems.

Skills

- **Programming:** Python, SQL, C, C++, C#, Java
- **Data Analysis:** Data Cleaning, Exploratory Data Analysis, Regression Modeling
- **Databases:** MySQL, Relational Data Management
- **Web Development:** HTML, CSS, JavaScript, PHP, AJAX, JSON
- **Tools:** Git, GitHub, VS Code
- **Core Computer Science:** Data Structures and Algorithms, Object-Oriented Programming
- **Professional Skills:** Teamwork, Communication, Time Management
- **Languages:** English (Fluent, IELTS 6.5), Bangla (Native)

Projects

House Price Prediction (In Progress) GitHub

Python, Pandas, Scikit-learn, Data Analysis

- Building a regression model to predict house prices from housing dataset features.
- Cleaning and exploring the data (missing values, feature distributions) and evaluating models with regression metrics.

Adaptive Graph Compression for GraphRAG GitHub

Python, GraphRAG, Knowledge Graphs, Reinforcement Learning

- Developed an adaptive graph compression approach using reinforcement learning to reduce retrieved context for knowledge-graph question answering.
- Benchmarked against uncompressed and heuristic baselines on answer quality and structural metrics, analyzing the compression vs. accuracy trade-off.

WorkNest – Workforce Management System GitHub

PHP, MySQL, HTML, CSS, JavaScript

- Built a workforce management web app with separate employee and manager portals and role-specific workflows.
- Used a MySQL database to manage employee records and administrative tasks.

Café POS Management System GitHub

C#, .NET, Windows Forms, Database Management

- Built a point-of-sale application for order processing, transactions, and product management.
- Organized sales and product records to support daily operational tracking.

Food Court Management System GitHub

Java, Java Swing, Object-Oriented Programming

- Built a desktop application with separate Admin, Shop Manager, and User interfaces for menu browsing, ordering, and shop management.
- Applied object-oriented principles to separate role-specific components.

Education

American International University-Bangladesh (AIUB) Ongoing

Bachelor of Science in Computer Science and Engineering CGPA: 3.83/4.00

Government Science College 2022

Higher Secondary Certificate (Science) GPA: 5.00/5.00

Alhaz Kobbad Ahammad Adarsha High School 2020

Secondary School Certificate (Science) GPA: 5.00/5.00

Honors & Awards

- Dean's List Honors – Fall 2025-26 (GPA: 3.75)
- Dean's List Honors – Spring 2024-25 (GPA: 3.91)
- Dean's List Honors – Fall 2024-25 (GPA: 3.95)
- Bronze Medalist – Cube Milao Bangladesh 2022 (WCA)
- Runner-Up – Bangladesh Mathematical Olympiad (Regional Round, 2014)
- Finalist (Best in Section) – Science Poster Contest (AIUB Department of Physics), Fall 2023-24

Leadership & Extracurricular Activities

Govt. Science College Science Club June 2022 – July 2023
Secretary of Gaming and Affairs

- Coordinated gaming events, workshops, and Rubik's Cube sessions as a club panel member.
- Helped organize National GSC Scientist Mania 2022.

World Cube Association Competitions
Volunteer Judge

- Judged at WCA competitions, ensuring fair play and compliance with event procedures, and assisted participants and organizers.
